NB-AR-01 • Academic Regulations and Progression Policy

Document Control	Details
Policy Code	NB-AR-01
Effective From	01 August 2026
Approved By	Academic Council
Status	Current

1. Purpose and Scope

This policy establishes academic requirements governing undergraduate enrolment, course registration, attendance, academic progression, credit completion and semester eligibility. It applies to all full-time undergraduate students unless a programme-specific regulation states otherwise.

2. Academic Credit and Course Registration

2.1 Credit Structure

Each undergraduate programme is organized into credit-bearing courses. Students shall register for prescribed courses through the academic registration system within the notified period.

2.2 Registration Restrictions

Students shall not register for a course where a stated prerequisite has not been satisfied unless an approved exception is recorded.

2.3 Academic Load

Students are ordinarily expected to register for the standard semester load. Overload requests require Programme Chair approval.

3. Attendance and Semester Eligibility

Students must maintain a minimum attendance of 75% in each registered course to be eligible to appear for the end-semester examination in that course.

Attendance is calculated separately for each course. Attendance in one course does not compensate for attendance deficiency in another.

Attendance condonation, where applicable, is governed by the Attendance and Leave Policy.

4. Academic Progression

At the end of an academic year, a student must satisfy the minimum credit-completion requirement prescribed for the programme to progress normally.

A student who fails to satisfy the minimum annual progression requirement may be placed on academic probation and may receive an academic improvement plan.

5. Examination Eligibility

Semester examination eligibility is governed jointly by course attendance requirements and the Examination and Assessment Regulations. Students must satisfy all applicable requirements.
