## NB-EX-02 • Examination and Assessment Regulations

| Document Control | Details               |
|------------------|-----------------------|
| Policy Code      | NB-EX-02              |
| Effective From   | 01 August 2026        |
| Approved By      | Examination Committee |
| Status           | Current               |

## 1. Purpose

These regulations establish procedures for assessment, end-semester examinations, eligibility, supplementary assessment, grading and result review.

## 2. Assessment Structure

### 2.1 Components

Unless programme regulations specify otherwise, a course may be assessed through continuous assessment and an end-semester examination. The course outline states the applicable components and weightage.

### 2.2 Internal Assessment

Internal assessment may include assignments, quizzes, laboratory work, presentations, projects or other approved activities.

## 3. Examination Eligibility

A student is eligible for an end-semester examination only when the student has satisfied the attendance requirement applicable to the course and completed the academic requirements specified in the course outline.

Approved academic leave is governed by the Attendance and Leave Policy.

## 4. Examination Conduct

Students shall carry valid institute identification and comply with examination instructions. Unauthorized materials, communication devices or communication with other candidates are prohibited unless expressly permitted.

Academic misconduct in an examination is handled under the Student Code of Conduct and Academic Integrity Policy.

## 5. Supplementary Assessment

### 5.1 Eligibility

A student receiving a result designated as eligible for supplementary assessment may register within the notified period.

### 5.2 Improvement

Where permitted, students may apply for grade improvement subject to programme conditions.

## 6. Result Review

Students may request a result review within seven calendar days of result publication.
